

BENEFITS
To the Economic Level

Recent genetic gains provide improvement at the producer level in the pig, and gains are due to genetic improvement with Canadian breeding.

Economic Gains from Genetic Improvement at the Producer Level

Items	Value/Mark	FFV (L) / Sows	Market Weight
Live Weight	12.500	112.000	112.000
Live Weight	10.000	100.000	100.000
Live Weight	10.000	100.000	100.000
Number of Pigs	1.000	1.000	1.000
FFV (L) / Sows	1.000	1.000	1.000

* Genetic gain of 1% per year over 17 years = 17% gain
 ** Genetic gain of 1% per year over 17 years = 17% gain
 *** Genetic gain of 1% per year over 17 years = 17% gain

Key Performance Indicators (KPIs) in Canada 2007-08
 more produced than they were 10 years ago because of the genetic gains achieved.
